WATER COOLER SERIES

POINT-OF-USE (POU) WATER COOLER FEATURES

ONYX POU STANDARD

- **Push-Fit no-tool water line connection** for 1/4 inch water lines.
- **One gallon high capacity stainless steel cold water reservoir.**
- **One piece hot tank** for piping hot water.
- **Hot 'n Cold integrated electronic buttons with safety release** on the hot water tap.
- **Adjustable hot or cold temperatures.**
- **LED power "dot"** in the faceplate shows that the unit is working.
- **LED spotlight** illuminates the dispensing area.
- **Removable drip tray**, dishwasher safe.

ONYX POU DELUXE

- **All the features of ONYX POU PLUS**
- **Dual Stage GREEN FILTER** with long life filter elements that reduce chlorine tastes and odors from the water, and filter out potentially dangerous cysts and some bacteria. (Tested to NSF Standards 42 and 53). The GREEN FILTERS are conveniently mounted in the rear of the unit for easy access and changeout, and are hidden from view by the attractive matching back cover.

ONYX POU ULTRA

- **All the features of ONYX POU and ONYX POU DELUXE PLUS**
- **Leak detector and automatic water shut-off valve** prevents any leak in the unit from ruining expensive countertops or floors.

THE "GREEN" FILTER FACTOR

Oasis introduced its environmentally friendly "**GREEN FILTER™**" water filtration system, in keeping with Oasis's concern for the environment. The GREEN FILTER features a completely re-usable housing and replaceable bio-degradable filter elements, which contrasts with other filter cartridges where a large plastic and metal housing ends up in the landfill, never to decompose.

*The **GREEN FILTER** is available with numerous filtering cartridge elements to resolve most any water problem... call Customer Service at (614) 861-1350 or visit www.oasisfilters.com for details.*
