## MINI SERIES CORONA DISCHARGE OZONE SYSTEMS

### FEATURES:

- Compact, wall-mounted
- Powder coated enclosure
- Air cooled for ease of installation
- Solid state components
- LED display
- 4-20 mA control or manual variable
- Available in stainless steel

### BENEFITS:

- Clearer, cleaner water
- Complete disinfection
- Superior oxidation
- No residue or chemical by-products
- No measuring, monitoring or handling of chemicals
- Produced on site

### MINI-SERIES - CORONA DISCHARGE OZONE SYSTEMS

ClearWater Tech's Mini Series produce more ozone using less electrical energy than any other ozone generators available.

Ozone is the most powerful oxidizer commercially available, up to 1.5 times stronger and many times faster acting than chlorine, and is unmatched as a disinfectant. Unlike traditional antiseptics, ozone is produced on-site with equipment that can easily be sized to meet any requirement. Ozone-enriched-water (OEW) not only sanitizes surfaces on contact but is completely safe. Ozone also leaves no harmful residue in water to harm the environment.

With features like compact size, fully adjustable ozone output, convenient electrical interface plug, and a new 4-20mA control circuitry, the Mini-Series are a perfect combination of versatility, economy and solid-state reliability.

CD10/AD

CD12

CD12/AD

### APPLICATIONS:

- Residential swimming pools
- Commercial spas
- Residential well water
- Bottled water
- Waste water
- Commercial laundry
- Water features
- Aquaculture
- Surface sanitation
